Product Description	<p>Azure Synapse Analytics (formerly Azure SQL Data Warehouse) https://azure.microsoft.com/en-us/blog/azure-sql-data-warehouse-is-now-azure-synapse-analytics/</p> <p>Azure Synapse is a limitless analytics service that brings together enterprise data warehousing and Big Data analytics. It gives the freedom to query both relational and non-relational data using the familiar SQL language. This can be done using either serverless on-demand queries for data exploration and ad hoc analysis or provisioned resources for your most demanding data warehousing needs</p> <p>Scope of this approval covers the following GA features:</p> <ol style="list-style-type: none"> 1. Synapse SQL: Complete T-SQL based analytics <ul style="list-style-type: none"> - SQL Dedicated Pool (pay per Data Warehousing Units - DWU provisioned) - SQL Serverless Pool (pay per TB processed) 2. Apache Spark for Synapse: Deeply integrated Apache Spark 3. Synapse Pipelines: Hybrid data integration 4. Synapse Studio: Unified user experience.
