1. Introduction

1.1. Purpose and Background

This document is the revised version with respect to organisation's document template. Objective of this document is to show instructions for viewing approved product standards.

2. Definitions

2.1. Consultation

State parties with whom the document has been consulted and justify decisions for any exclusions.

Version	Reviewer	Department	Feedback	Exclusion
0.x	Name	Acronym	Yes/NA (Mode)	Yes/No
2.0			Yes	Yes

2.2. Glossary

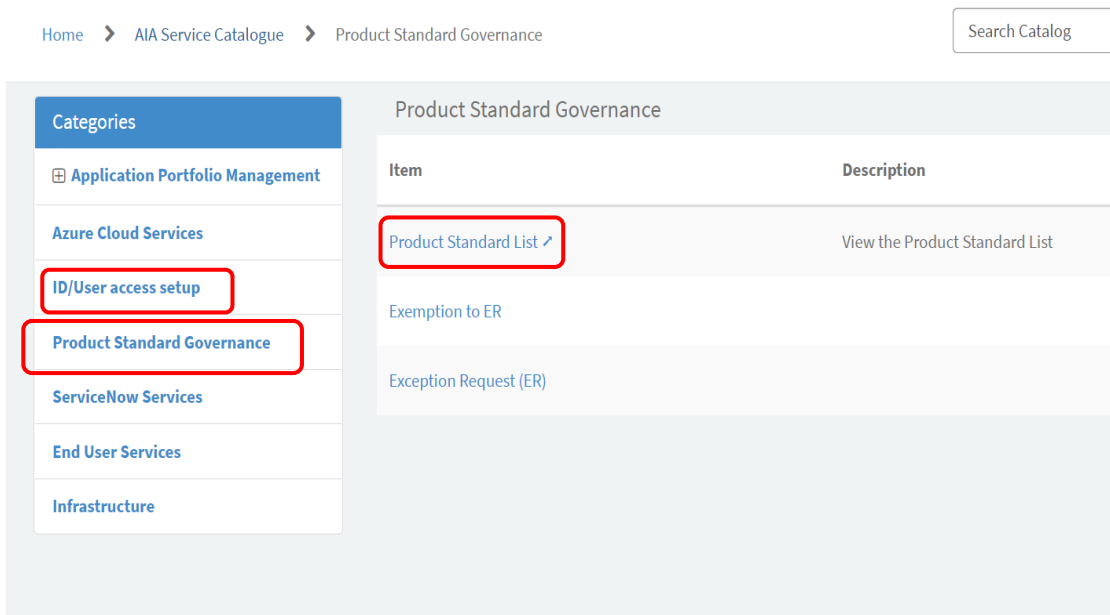

When not defined throughout the document, include a glossary of terms. Especially applicable to technical documents.

Sr.	Acronym	Description
1	BU	Business Unit
2	CPP	Corporate Policy Portal

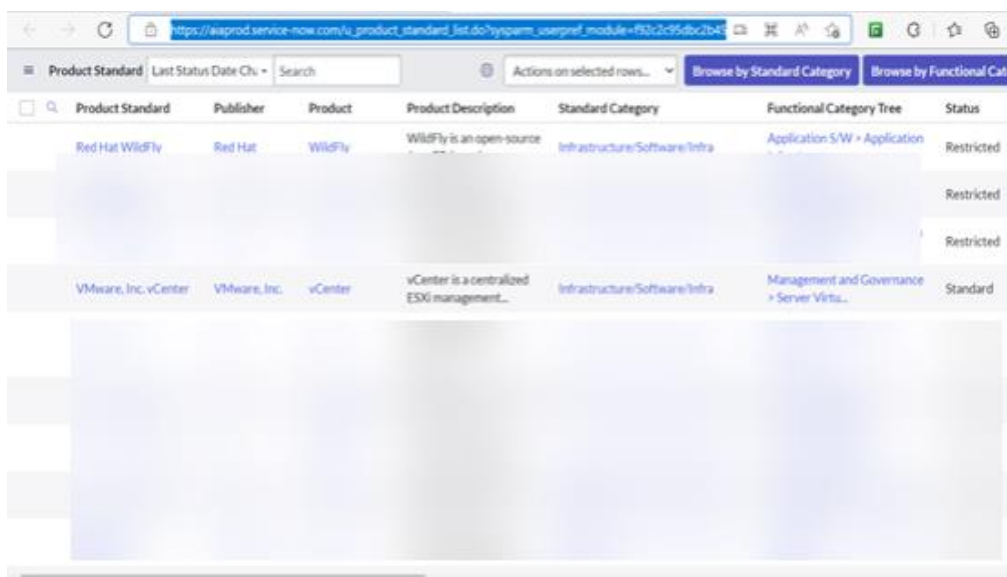

3. View Approved Product Standards

3.1. Perform the following steps to view approved product standards.

1. Login to Service Now and click **Service Catalogue**
2. Click **Product Standard Governance** and click **Product Standard List**

Step Result: Lists all the approved products.

3. Use filters to search as highlighted in the following. Make sure the **Status** is **Standard**.

Product Standard	Publisher	Product	Product Description	Standard Category	Functional Category Tree	Status	Restriction and other Remarks
Microsoft Azure Synapse Analytics	Microsoft	Azure Synapse Analytics	Azure Synapse Analytics (formerly Azure ...)	Business Software/Native Cloud Services/Azure	Data, BI and Reporting > Data Warehouse	Standard	

4. Click the service for detailed information as highlighted in the following.

Product Standard: Microsoft Azure Synapse Analytics

Product Description: Azure Synapse Analytics (formerly Azure SQL Data Warehouse) <https://azure.microsoft.com/en-us/blog/azure-sql-data-warehouse-is-now-azure-synapse-analytics/>

Azure Synapse is a limitless analytics service that brings together enterprise data warehousing and Big Data analytics. It gives the freedom to query both relational and non-relational data using the familiar SQL language. This can be done using either serverless on-demand queries for data exploration and ad hoc analysis or provisioned resources for your most demanding data warehousing needs

Scope of this approval covers the following GA features:

1. Synapse SQL: Complete T-SQL based analytics
 - SQL Dedicated Pool (pay per Data Warehousing Units - DWU provisioned)
 - SQL Serverless Pool (pay per TB processed)
2. Apache Spark for Synapse: Deeply integrated Apache Spark
3. Synapse Pipelines: Hybrid data integration
4. Synapse Studio: Unified user experience.

Restriction and other Remarks:

5. Click **[Browse by Functional category](#)**.
